

Barcode Print+

Brother's Barcode Print+ utility extends the printing capabilities of Brother printers by allowing the user to easily print barcodes within documents.

Simply supply the printer with the information for the barcode and a barcode will then be printed in the correct format. The quality of the barcodes reflects Brother's exceptional printing standards. So, they are read with ease by a variety of barcode readers.

Simple integration

Easily integrates into existing software systems. Fully compatible with SAP and many more enterprise solutions.

Using existing printer

There's no need to use a specialist or dedicated printer. Barcode font printing can be easily added to a Brother printer.

Bespoke printing

Easily print the barcodes that the business required, to fit into specific document requirements.

- Drop in support of a barcode library
- Used for doc printing software applications
- Uses PCL commands and control codes

Where Brother is the existing or preferred print option, Barcode Print+ provides the opportunity for integration with software which can utilise and exchange PCL commands and control codes and implement it into their computer systems.

Available on selected Brother solutions-enabled printers:

HL-L5000D	DCP-L8410CDW
HL-L5100DN(T)	HL-L8260CDW
HL-L5200DW(T)	HL-L8360CDW
HL-L6300DW(T)	MFC-L8690CDW
DCP-L5500DN	HL-L9310CDW(T)
HL-L6400DW(T)	MFC-L8900CDW
MFC-L5700DN	MFC-L9570CDW(T)
DCP-L6600DW	
MFC-L5750DW	
MFC-L6800DW(T)
